thrml.™

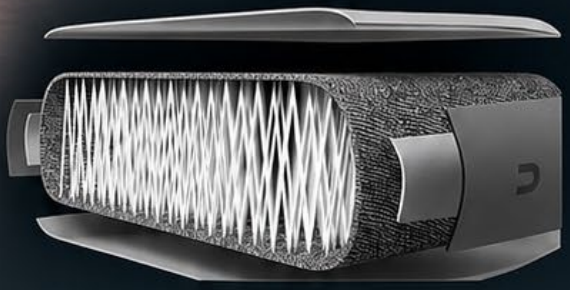

Built for the Elements

The rigidity and strength of a premium inflatable paddleboard — engineered into a hot tub cover.

SQUARE SPAS ONLY

AIRCAP 1™
Premium Hot Tub Cover

AIRCAP 1™ core with AirLoc™ heat-welded technology

At **thrml.**™ we set out to solve the problems of traditional foam spa covers by building a premium alternative for buyers who want quality, performance, and long-term durability. AIRCAP 1™ is designed for an amazing ownership experience and long service life.

- **Light, no foam** — approx. **35–40 lb** out of the box and years later
- **Drop-stitch construction** with **AirLoc**™ heat-welded technology
- **No foam core** to soak up water
- **Rigid, durable, impact-resistant and built for harsh weather**
- **Expected lifespan: 5–10+ years** with proper care

160 mph	0 lb	5–10+ years	3–5 yrs	$995 + tax
Golf balls fired at the cover to simulate hail	Weight gained with age — no foam core to soak up water	Expected lifespan with proper care	Typical foam cover lifespan	

How drop-stitch works

Two layers of reinforced fabric are connected by thousands of internal threads. When inflated to the recommended pressure, the panel becomes flat, rigid, and exceptionally tough — distributing weight evenly and resisting deformation.

thrml.™ | Choose the Right AIRCAP 1™ Cover

Measure your spa, match it to a size, and enjoy premium long-term protection.

1 Measure your spa
Measure straight across the top of your spa, edge to edge, both ways.

2 Match it to a size
Find the size range your measurement falls into and choose the matching cover.

We currently manufacture square covers for spas between 77" and 94".

XXS	XS	S	M	L	XL
77–79"	80–82"	83–85"	86–88"	89–91"	92–94"

We tried everything to break it

We fired golf balls at 160 mph to simulate hail, struck the covers with hammers, and tested them in scorching heat, below-zero temperatures, and severe rain. AIRCAP 1™ was built to handle the elements.

Why AIRCAP 1™ outperforms foam

- **Drop-stitch construction** creates a rigid, durable panel when inflated.
- **No absorbent foam core** means no waterlogging, weight gain, mold, or rot.
- Traditional foam covers can crack, sag, absorb moisture, and usually last only 3–5 years.
- AIRCAP 1™ is designed as a **longer-lasting, lower-maintenance** upgrade.

The bottom line

AIRCAP 1™ combines rigid drop-stitch construction, weather resistance, and long-term durability to deliver a premium spa cover that resists common foam-cover failures and is built for years of dependable performance.

Revision 11/19/2026

AIRCAP™ LIMITED WARRANTY

A customer guide to THRML's published warranty terms

3 YEARS | 36 MONTHS	Materials and workmanship under normal use

Warranty Coverage

thrml.™ warrants AIRCAP™ insulating spa covers to the original purchaser against defects in materials and workmanship under normal use for a period of **three (3) years (36 months)** from the date of delivery to the original purchaser.

If an AIRCAP™ cover is determined to have failed due to a defect in materials or workmanship during the warranty period, the manufacturer will, at its sole discretion, repair or replace the defective product at no charge for materials or labor.

All warranty claims are subject to inspection and approval by the manufacturer. The manufacturer reserves the right to determine whether a defect is covered under this limited warranty.

This warranty applies only to defects in materials and workmanship and does not cover damage resulting from misuse, abuse, improper installation, excessive chemical exposure, normal wear and tear, or other conditions outlined below.

Warranty Exclusions

The following conditions, damages, and circumstances are **not covered** under this limited warranty:

1. **Normal Wear and Tear:** Ordinary wear and tear, chemical deterioration, material breakdown, and delamination resulting from use or environmental exposure.
2. **Chemical Damage:** Damage caused by excessive chemical levels in spa water, improper water chemistry, chemical misuse, or direct contact with chemicals on the cover.
3. **Seams, Hinges, Handles, and Skirts:** Seam or hinge splitting, torn handles, and torn skirts are not considered defects in materials or workmanship.
4. **Handles, Tie-Downs, and Wind Straps:** Handles, tie-downs, and wind straps are designed solely for opening, closing, and securing the cover. They are not intended for carrying, lifting, or removing the cover from the spa or hot tub. Damage resulting from improper use is excluded.
5. **Punctures and Abrasion:** Holes, tears, punctures, or other damage caused by dragging the cover across surfaces, storing it against sharp objects, or exposing it to abrasive materials.
6. **Excessive Weight or Pressure:** Damage caused by walking, standing, sitting, or placing excessive weight on the cover. This includes damage resulting from accumulated rainwater, snow, ice, animals, or other external loads. AIRCAP™ covers are not designed to support people or excessive weight.
7. **Water Pooling on top of Cover / Snow Accumulation on top of Cover:** A little water will pool on top of the cover in most cases and is normal. Snow will accumulate on top of the cover in most cases and is normal. Remove snow and water as needed using gentle tools that will not hurt the cover, such as a broom.
8. **Fading and Discoloration:** Fading or discoloration of PVC materials and stitching caused by sunlight, weather exposure, chemical maintenance, or natural aging. Such changes are considered normal and are not defects in materials or workmanship.
9. **Improper Installation or Transportation:** Damage caused by incorrect installation, improper handling, transportation, or failure to follow recommended installation and care procedures.
10. **Misuse, Negligence, or External Damage:** Damage resulting from misuse, abuse, negligence, accidents, vandalism, fire, animals, alterations, severe weather, wind, or other acts of God.

11. **Cover Lifter Damage:** Damage caused by cover lifting systems that use hydraulic or gas-spring assistance, or systems that attach directly to the cover. Compatible manual cover lifters are permitted when they meet the manufacturer's compatibility requirements. For additional information, see thrml.™ website for more information.
12. **Use Outside Intended Purpose:** Damage resulting from using the cover for any purpose other than its intended function as an insulating spa or hot tub cover.
13. **Shipping and Freight Charges:** All shipping and freight expenses associated with warranty claims, repairs, or replacements, including transportation to and from the manufacturing facility, are the responsibility of the original purchaser, regardless of when the claim is submitted during the warranty period.

Warranty Claim and Repair Process

All warranty claims must be evaluated and approved by the manufacturer.
Upon inspection, if the manufacturer determines that the product contains a defect in materials or workmanship covered by this warranty, the manufacturer will repair or replace the product at its discretion.
Approved repairs or replacements will be provided without charge for materials or labor. The purchaser remains responsible for all applicable shipping and freight charges.
Repair or replacement under this warranty is limited to the terms and conditions stated herein.

How to File a Warranty Claim

To file a warranty claim or request additional warranty information, please contact thrml.™ directly using the information below:
thrml.™ — AirCap Technologies Inc.
Phone: (425) 931-8496
Email: feedback@thrmltech.com

Website: www.thrmltech.com
Contact Page: www.thrmltech.com/pages/contact
Please contact thrml.™ before returning or shipping any product for warranty evaluation. All warranty claims are subject to manufacturer inspection, approval, and the terms and conditions of this limited warranty.

Limitations of Warranty and Liability

The express warranties provided herein constitute the only express warranties offered by thrml.™ for AIRCAP™ products.
To the extent permitted by applicable law, any implied warranties, including warranties of merchantability or fitness for a particular purpose, are limited to the duration of this limited warranty, which is three (3) years (36 months) from the date of delivery to the original purchaser.
To the extent permitted by applicable law, thrml.™ and the seller shall not be liable for incidental or consequential damages, including property damage, personal injury, or other losses arising from the use or inability to use the product.
Some states do not allow limitations on the duration of implied warranties or the exclusion or limitation of incidental or consequential damages. Therefore, the above limitations or exclusions may not apply to you.

Important Warranty Information

This limited warranty applies exclusively to the original purchaser and covers qualifying manufacturing defects under normal, intended use during the specified warranty period.
Proper installation, regular maintenance, appropriate water chemistry, and correct handling are essential to maintaining the condition and performance of your AIRCAP™ insulating spa cover.
This warranty provides specific legal rights. You may also have other rights that vary from state to state.
